Instructions for Professors

The deliverables outlined in our project proposal are:

1. .zip of project files
2. Documentation
3. Test Report
4. AWS Architecture Diagram
5. Deployment Instructions
6. Division of Tasks

(1) .zip

The .zip of our project files is included in the .zip turned in: /website-3.0.0.zip

(2) Documentation

The documentation is in the .zip turned in. To view the docs, open the "documentation/index.html" in a web browser. The docs are supplied in a convenient and navigable static web application.

(3) Test Report

The test report is in the .zip turned in. To view the test report, open the "test-report/index.html" file in a web browser. The test report is supplied in a convenient and navigable static web application.

(4) AWS Architecture Diagram

<u>(5) Deployment Instructions</u>

This section can be removed from our deliverables, we successfully implemented continuous deployment from our code and the web app is automatically deployed for this and all future releases.
